

**Riverside-Corona Resource Conservation District**

**ADDENDUM No. 1**

**To Notice Inviting Bids and Contract Documents for Jurupa Avenue Extension-Hole  
Creek Conservation Project**

To all Bidders responding to the above-described Notice Inviting Bids:

**PLEASE TAKE NOTE:** This Addendum No. 1 amends and supersedes conflicting information in the above-described Notice and Contract Documents.

*The Notice Inviting Bids for Jurupa Avenue Extension-Hole Creek Conservation Project is hereby amended as follows:*

Exhibit A – Services/Schedule

2.2 INVASIVE PLANT REMOVAL

2.2.1 General Requirements

- F. ~~Conduct removal of approximately 3.5 acre of giant reed (*Arundo donax*), as well as scattered tamarisk (*Tamarix* spp.), palms (*Phoenix* spp. and *Washingtonia robusta*), and other invasive plants as encountered. The stands of giant reed occur in both pure and mixed stands and some are growing in the active channel and on the bottom of the flood plain. The Contractor shall ensure that only non-native plants are removed.~~

On the section of the Jurupa Avenue Extension Project Conservation Area, south of Jurupa Avenue:

1. Conduct removal and maintenance of approximately 2.5 acres of giant reed (*Arundo donax*) encountered as large stands, small patches, and individual plants. All encountered giant reed within the Conservation Easement is to be removed, along with any non-native vegetation within the patch of giant reed (including any palms, but excluding Ash trees [*Fraxinus* spp.]). In addition to this, non-native vegetation (excluding Ash trees) within a 3-meter buffer of the treated patch is also to be removed. Maintenance shall include treatment and or removal of all non-natives (excluding Ash) that regrow or emerge within the treatment area and 3-meter buffer, following the initial removal phase.
2. Conduct maintenance (as described above) of approximately 1 acre of land of which giant reed has already been cleared by the City of Riverside.
3. Conduct removal of mature palms within the Conservation Easement, outside of the giant reed treatment area. The number of estimated mature palms outside of the estimated 3.5-acre giant reed treatment area is 13.
4. The Contractor shall ensure that only non-native plants are removed.
