

Riverside-Corona Resource Conservation District

ADDENDUM No. 2

To Notice Inviting Bids and Contract Documents for Jurupa Avenue Extension-Hole Creek Conservation Project

To all Bidders responding to the above-described Notice Inviting Bids:

PLEASE TAKE NOTE: This Addendum No. 2 amends and supersedes conflicting information in the above-described Notice and Contract Documents.

The Notice Inviting Bids for Jurupa Avenue Extension-Hole Creek Conservation Project is hereby amended as follows:

Exhibit B – Plans and Specifications

Site Preparation

Initial Removal

C. Removal can be done by the following methods: Hand removal by chainsaws or brush cutters, tractor-mounted mulching mowers, arm-mounted tractor/cutter or other approved power equipment. Access roads to the area can be used to transport equipment and personnel. ~~A permanent stockpile area should be established in order to shred the stalks in areas that cannot be used with tractors. All material must be removed and chipped. Material can be used as mulch to dry in place. The number of persons and equipment used in the removal will depend upon the acreage treated each day and area conditions.~~ All cut material must be removed from the project site. Method of removal is up to the discretion of the contractor but must not cause undue damage to the desirable habitat. Cut material can be stockpiled outside of the creek bed, where convenient and accessible by equipment, on City of Riverside property. All cut material or stockpiles must be removed weekly.

Your Bid must take this change into account. **PLEASE SIGN AND RETURN THIS ADDENDUM (OR A COPY OF THIS ADDENDUM) WITH YOUR BID TO ACKNOWLEDGE YOUR RECEIPT OF THIS ADDENDUM NO. 2.** Failure to do so may cause RCRCO to reject your Bid.

ACKNOWLEDGEMENT OF RECEIPT

As the authorized representative of the below-named Bidder, I hereby acknowledge the Bidder's receipt of this Addendum No. 2.
