

MONARCH CONSERVATION CHALLENGE

Help save Monarch butterflies and other pollinators.

Saturday, Nov. 2, 2019

LandUse Learning Center (LLC), 4500 Glenwood Dr., Riverside 92501
 Overflow parking at Ryan Bonaminio Park, 5000 Tequesquite Ave. (see map on reverse)

NATIVE PLANT SALE: 9 am - 3 pm

Purchase natives, including milkweed and plants that produce nectar, to create yard habitat that supports Monarchs and other pollinators. Fundraiser for the California Native Plant Society.

POLLINATOR FESTIVAL: 11 am - 3 pm

Have fun learning about pollinators with games, crafts and activities throughout the LandUse Learning Center. Learn about the care of pollinator plants from UC Master Gardeners.

Saturday, Nov. 9, 2019

HABITAT PLANTING: 10 am - 1 pm

(See reverse for map and more information)

Wear your favorite pollinator or flower costume!

MONARCH CONSERVATION CHALLENGE

Saturday, Nov. 9, 2019

HABITAT PLANTING: 10 am - 1 pm

Plant Monarch food and host plants at nearby Ryan Bonaminio Park, 5000 Tequesquite Ave. (see map below)

Space is limited, **volunteers must RSVP to Rachael at rhamilton@riversandlands.org or (951) 788-0670, ext. 1003.**

Volunteers must wear closed-toe shoes and minors need guardian signature on waiver. Please bring a reusable water bottle. Gloves and supplies provided. Coordinated by Rivers & Lands Conservancy.

Thank you to the Xerces Society for providing pollinator plants for this project.

When handling milkweed, wear gloves and follow with hand washing. Do not rub eyes. The milky sap can cause problems (but not to Monarchs!)
